Phil Greenspan
101 Forge Lane
Marshfield, MA 02050

Dear Mr. Greenspan,

This is to confirm your reception of WTLA, 1200 khz, North Syracuse, NY on February 20, 1995 from 8:35 - 8:54 PM EST, and WTLB, 1310 Khz, Utica, NY on April 19, 1995 ag 7:06 AM EDT.

WTLA was originally known as WSOQ at 1220 khz and operated with 1000 watts daytime. The station moved to 1200 khz in 1990, continuing with 1000 daytime and adding 1000 watts directional nights with the call letters WEZG, then WNSS, then WXRA, then WKRL and now WTLA.

WTLB began as WGAT in the late '40's with 1000 watts daytime and 500 watts directional nights. In the early '50's the call letters were changed to WTLB and a 5000 watt directional daytime signal was added in the early '80's.

The Radio Corporation, which also operates WRCK(FM)-Utica, WKLL(FM)-Frankfort, WTKW(FM)-Bridgeport, and WKRL-FM-North Syracuse, began a simulcast of the present nostalgia format on WTLA and WTLB in January of 1995.

Thank you for your report.

Dave Doughty
